

## Why Oktopus® ERGO-Pick 150 DN R 660 S TA CA EZU?

The OKTOPUS® ERGO-Pick 150 DN R 660 S TA CA EZU is a vacuum-based load lifting device, designed for the vertical handling of glass panes and window elements up to 150 kg within closed rooms. It features a single trolley (standard: ABUS) for attachment to an existing single bridge (provided by the customer). The suction frame can be lifted, lowered, rotated by 90°, and inclined by 8° using a pneumatic cylinder. The ergonomic design of the operating and display elements ensures comfortable and precise load positioning.

The device utilises the Venturi principle for vacuum generation, offering high safety standards, with optical and acoustical warnings for deviations from nominal conditions. In case of a sudden drop in compressed air, the vacuum remains in each suction pad for at least 5 minutes, ensuring secure load lowering. It complies with DIN EN 13155 and DIN EN 13035 standards, making it ideal for handling vertical glass storage racks and processing machines. Compatible with indoor cranes, lightweight crane systems, and pillar and wall-mounted slewing cranes, it includes a height-adjustable control panel and telescopic cylinder for enhanced functionality.

### CONFIGURATIONS

-  Driven travelling cage
-  Column and wall mounted slewing
-  Rotate 90°/95°
-  X-Y lightweight crane systems
-  Compressed air

## OVERVIEW

Working Load Limit	150 kg
Suction frame type	<ul style="list-style-type: none"><li>• Rotate: pneumatically 0 - 90°</li><li>• Incline: pneumatically , 0 - 8°</li></ul>
Weight	ca. 100 kg
Suction pads	4 pcs. Ø 200 mm
Vacuum generation	Ejektor (central), optional ejektor (central) with air saving function
Power supply	<ul style="list-style-type: none"><li>• Compressed air connection: 6 bis 9 bar</li><li>• Consumption: ca. 125 l/min</li></ul>
Lifting and lowering	By pneumatic cylinder (telescopic stroke 1200 mm)
Rotating horizontally	Manually 360° in the carriage adapter

## DIMENSIONS

# Lincer, Your Equipment Guardian.

## Lincer's Services

### Inspection and Testing

Our comprehensive Inspection and Testing services for vacuum lifting equipment, and material handling equipment are designed to safeguard your operations and workforce.

### Schedule Maintenance

Our commitment is backed by a meticulous schedule, featuring periodic inspections, designed to proactively address any potential issues and keep your lifting equipment in peak condition.

### Replacement Equipment

We offer replacement lifting equipment while yours is being serviced, ensuring your operations continue uninterrupted, keeping your projects on track.

### Repairs

At Lincer, we specialise in top-tier repair services for lifting equipment. Our certified technicians are adept at addressing any damage, ensuring your equipment operates at its best.

### Parts

Discover a comprehensive selection of high-quality lifting equipment parts at Lincer. We offer a wide range of genuine parts to keep your lifting equipment operating at peak performance. Shop with confidence and trust our expertise in providing reliable parts for all your lifting needs.

## 5 Reasons to choose Lincer

# 1

### Peace of Mind

At Lincer, quality and safety are our top priorities. We provide best-in-class equipment to not just meet but exceed your expectations, ensuring peace of mind for every project.

# 2

### Know-How

Backed by our professional team, which we consider our greatest asset, and fortified by strong industry partnerships, we deliver swift technical services and guarantee compliance with Australian standards, ensuring your operations run smoothly.

# 3

### Lifecycle Management

Let us handle the entire lifecycle of your equipment. From initial sales to ongoing servicing, our end-to-end solutions are designed to optimise your operations and minimize disruptions.

# 4

### Seamless Continuity

With Lincer, downtime is a thing of the past. We offer replacement lifting equipment while yours is being serviced, ensuring your operations continue uninterrupted.

# 5

### Industry Affiliations

Lincer stays at the forefront of the lifting industry, keeping you informed with the latest technical, legal, and safety information. Thanks to our affiliations you can trust that you're always operating with the most up-to-date knowledge and standards.
